FRIDAY, FEB. 7, 1890.

THE POSTAL SERVICES.

The report of the Postmaster-General of Canada for the year ending June 30th, 1889, has just been issued and some of the facts contained in it will be read with interest for the proofs they furnish of the growing business of the country. In the year treated of in the report the number of post-offices increased from 7,671 to 7,838. The mail route between Canada and China and Japan shows a steady increase. "One mail recently received at Vancouver contained upwards of 4,000 letters from all parts of China and Japan for Europe, besides a large number for Canada and the United States." The department avails itself quickly of new routes for establishing an improved service; the new short line between Montreal and the Maritime Provinces being especially noticed in the report as appreciably diminishing the time required for the transmission of the mails. Mails are now carried over 11,510½ miles of railway in Canada.

The gross revenue for the year was \$2,984,222 and the expenditure \$3,746,040, a deficiency of \$761,818 which is the smallest for some years, the heavy outlay to provide a good service precluding the possibility of making both ends meet. The report frankly says: "No large increase in the revenue can be anticipated so long as the department has to carry vast quantities of printed matter at a very heavy cost without receiving any remuneration in return." Likewise we are assured that "the increase in the ordinary expenditure of the department has not been greater than the increased facilities afforded to the public will justify; reduction of expenditure can only be effected by a diminution of convenience."

Some idea of the volume of business may be gathered from these figures: 92,668,000 letters were posted during the year, 19,355,000 post cards and 3,649,000 registered letters. Of these the province of Ontario furnishes by far the greatest number, namely, 49,887,000 letters, 12,671,000 post cards and 2,084,000 registered letters.

The merchants of a Portugal town have forced an English ship to sail without a cargo.

Berlin proposes to get up an exhibition in 1897 that shall put the recent affair at Paris completely in the shade.

The German government has issued a commission for the immediate commencement of the proposed canal to connect Berlin with the Baltic sea.

The Brazilian government have decreed that foreign capitalists doing business in that country must transfer two-thirds of their entire capital thither within two years.

A concurrent resolution from the Senate was passed by the New York State Assembly petitioning Congress to select New York city as the location for the World's fair of 1892.

The United States Circuit Court, has ordered the sale of the Fort Scott, Wichita and Western railroad to satisfy a mortgage held by the Union Trust Company of New York.

The total production of pig iron in the United States in 1889 was 7,604,525 gross tons, an increase over 1888 of 1,14,787 tons, or over 17 per cent.

The United States Senate Committee on commerce has unanimously agreed to report a bill appropriating \$5,000,000 to improve the Sault Ste. Marie canal.

The German Government is especially impressed by the unanimity with which the English press of all shades of politics has endorsed Lord Salisbury's attitude towards Portugal.

The big guns turned out by the English arsenals are now fitted with a device to facilitate firing at night. The ordinary sights are illuminated by a small incandescent lamp, the rays from which, passing through a lens, are converged, so that only a minute point or line of sight is obtained. By means of an adjustable resistance the light can be modulated to suit the degree of darkness of the night or the eye of the observer.

Mr. Fahey, traveller for Carscaden & Peck, is in town this week.

Messrs. Brooks and Brown, civil engineers, who have been inspecting the ties for the Q., L.L. & S.R. Co., are now running trial lines down the hill to find out the easiest grade.

GENERAL NEWS.

WASHINGTON, Jan. 25.—Gardner Hubbard, of this city, who spoke against the copyright bill before the judiciary committee yesterday, continued the argument today at the request of the committee. He avowed that an international copyright law would do more harm to the country than any other bill that could be passed. American authors who published books in their own country and then secured copyrights in Canada or elsewhere, said Hubbard, violate the copyright law as a matter of course. He accused American authors of looking against their own interests. American authors were not, so far as he was aware, in favor of the bill.

NEW YORK, Jan. 26.—Fire in the cargo hold of the bark Pythonsene, from Calcutta, owned by H. Mary Ferrie and Sons, of Liverpool and consigned to Charles P. Sawyer of this city, caused a loss of \$25,000 to the cargo and vessel early this morning. Several of the crew were made unconscious by smoke and were taken out with difficulty. To save the vessel it was necessary to scuttle her and she now lies submerged to the water line at Pierpoint stores, Brooklyn.

CHICAGO, Ill., Jan. 25.—Officers of the steamer City of Baton Rouge, passing up last evening, reported a heavy shock of earthquake at Belvoir Lake, Tenn., at three o'clock yesterday morning. A panic followed among the inhabitants, who have not forgotten the results of the great earthquake many years ago, when New Madrid and much of the adjacent territory sunk beneath the Mississippi.

WASHINGTON, Jan. 26.—The President has sent the following telegram of condolence: "Washington, D.C., Jan. 25. To His Majesty King Humbert, Rome. I beg to express to Your Majesty my deep sympathy in the great sorrow which has fallen upon Your Majesty in the untimely death of your distinguished brother, the Duke of Aosta." (Signed) J. Harrison.

NEW YORK, Jan. 25.—A London cable says Dr. Talmage sailed for New York today on the Aurora. He brings with him a stone from the river Jordan, another from Mount Calvary, a third from Mount Hill, Athens, where Paul preached, and several other souvenirs of his trip which will be used in the construction of his new tabernacle.

MACHIAS, Maine, Jan. 26.—The schooner before reported ashore on Ram Island in the Lawrence, of St. John. She is total loss. Her crew are badly frost bitten. The schooner Ximenia, owned by Wm. C. and G. Holway, with a cargo of 2,000 bushels of corn and merchandise, is a total loss on Foster's Island.

MOONSBURG, Cal., Jan. 25.—The Rio Grande express which left Colorado Springs at 5:30 this afternoon, was blown from the track at the Moonsburg depot. Assistant General Freight Agent Zimmer of the Rio Grande, was probably fatally injured, but no others were seriously hurt.

NEW YORK, Jan. 26.—The agent of the National line said to-day he had received no news of the missing steamship Erin, but he had by no means abandoned the hope that the vessel was still afloat and would be heard from soon.

The Government is having lots of trouble with the printing bureau, another strike being imminent, and if it even takes, Government business will simply be paralyzed. The printers met on the 26th, and resolved to strike, as their demand had not been acceded to. However as it was generally felt that there was a large amount of work on hand that was imperatively needed at once, this was considered and it was decided to wait upon Mr. Chapleau again to-morrow and if he did not come to their terms they would go out on Wednesday. Mr. Chapleau went to Montreal yesterday, but will probably be back in the morning.

It is probable that the matter of the reimposition of the duty on fruit, which was removed a few years ago, will be brought up in the House this session. The Niagara peninsular fruit growers are the chief agitators for the duty, feeling that their business would be injured by the importation of fruit in event of a glut in the American market.

Chief Justice Taylor has been appointed administrator for the special purpose of opening the Manitoba Legislature on Thursday, owing to Governor Shultz's illness.

Clements, representing the National Construction company, and the Manhattan Cotton Duck company, Nova Scotia,

is in Ottawa to interview the Government in regard to the protection of goods these companies will manufacture. In case it is secured both of these companies will enter very extensively into the manufacture of cotton, duck, flannels and wares, either in Nova Scotia or New Brunswick.

TORONTO, Jan. 26.—Wm. O'Connor, the owner, leaves on Tuesday next for Australia, as he sees no prospect of another race in America or England.

TORONTO, Jan. 26.—At a meeting of representatives held yesterday afternoon, a company was organized for the purpose of securing the Upper Canada College grounds as a public park, and converting the building into a museum of art, and to secure other squares for the city, to be adorned with statues and monuments of distinguished citizens, etc.

MONTREAL, Jan. 26.—The annual report of the Montreal board of trade says the year 1889 cannot on the whole be recorded as having been a prosperous one for Canada. This state of affairs is attributed to poor crops in Ontario in 1888 and the disappointingly small yield of cereals in Ontario, Quebec and Manitoba this year, coupled with the low prices obtained for grain and the falling off in the demand from the United States for Canadian barley.

MONTREAL, Jan. 26.—One David Stainton, second engineer of the New York Life insurance building, fell eighty-five down an elevator and was instantly killed.

FARGO, Ont., Jan. 26.—John Finnegan of Fargo, jumped from a train there yesterday and died of injuries received in jumping.

QUEBEC, Jan. 26.—A man named Lafrance while clearing a house top fell to the ground, a height of 50 feet, fearfully injuring himself.

TORONTO, Jan. 26.—At a meeting of the police commissioners yesterday a by-law was finally adopted to license newsboys and bootblacks, and to prohibit gels from selling papers on the streets. The by-law will take effect April 1st. The salaries of all members of the force were increased on an average of about \$1 a week each. The increase will total about \$10,000 per year.

QUEBEC, Jan. 26.—The funeral of the late Monsignor Legare took place to-day at the Basilica with unusual ceremonies. Cardinal Taschereau and several bishops attended the funeral. Mayor Laugelher and a vast concourse of prominent citizens were also present. The remains were placed in the crypt of the basilica.

QUEBEC, Jan. 26.—There is a project on foot to build a bridge over the St. Lawrence at the Island of Orleans, to cost a million and a half.

LONDON, Jan. 26.—Immediately upon the opening of Parliament, Parnell will bring up the question of the forged Pigott letters published by the Times in its articles on "Parnellism and Crime."

LONDON, Jan. 26.—Capt. Saunders, of the Eborac Cricket club, and a team of amateur players will visit America in August.

TORONTO, Jan. 26.—Editor Farrar, of the Mail, has secured summonses against David Creighton and L. P. Kribbs, manager and news editor of the Empire, charging them with criminal libel against him. The case will come up with the main charge laid by Mr. Bunting to-morrow morning.

MONTREAL, Jan. 26.—During the last few days the river has been settling down to its winter work. To-night the ice jammed in the channel, and the river rose rapidly. The water invaded Point St. Charles, and at one time a flood was feared, but it retired without doing much damage.

The many friends of Mr. Adam McBeath will regret to learn of his death, which occurred on Friday evening last. The deceased had been sick for some time past with congestion of the lungs. Mr. McBeath was one of the first settlers in our town, as he came here with the late Rev. Mr. Nisbet, and taught school in the old church building, which was pulled down last summer.

The head pushers of the Curling Club are letting the enthusiasm in curling die out on account of the ice not being kept in half decent order. The ice is in very poor condition and the rinks should again be flooded and then the club will have good ice until well on in spring, and a great many more of the members will turn out to curl. The ice at present is all hills and grooves and it is almost impossible to tell where a stone is going.

THANKS.

QU'APPELLE ST'N, Feb. 3.

MR. R. OUELLET,
Manager for Stobart & Co.
Prince Albert.

DEAR SIR,—Permit me to thank you on behalf of the Service for your kindness and courtesy on Saturday afternoon, in operating at Prince Albert, on account of Mr. Rankin's illness. The office would of necessity have been closed until the arrival of Mr. Noel, if you had not kindly volunteered to send and receive telegrams for us. Thanking you again. Believe me

Yours sincerely,
HARTLEY GIBBORNE,
District-Supt.

CLARK'S CROSSING.

Peter McCallum and Weston Clarke, of Saskatoon, left Moose Jaw on the ninth of January with freight and have not since been heard of. The most incomprehensible indifference regarding their fate seems to exist, and up to the present moment not a step has been taken to ascertain what has become of them.

In the meantime preparations are going forward for the annual bachelor's ball which takes place on the 14th inst.

We have had severe snow storms during the past week.

The work of transferring supplies from the end of the track, to Maddigan's tie comps, near Duck Lake is about done.

Notwithstanding the heavy snow storm of Monday last our mail got here from Batoche in time. A fact which speaks loud for the energy and perseverance of young Caron, our courier.
